

# BRYAN FRANCIS O. ENCARNACION

---

## Software Engineer

Cebu, Philippines | +63 945 194 7295 | bryanfrancis1027@gmail.com

Portfolio: [Bryan Encarnacion Portfolio](#) | LinkedIn: <https://www.linkedin.com/in/bryan-encarnacion> | GitHub: [BryanFrancis27 \(Bryan Encarnacion\)](#)

## TECHNICAL STACK

Frontend: React 19, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Framer Motion

Backend & API: Firebase, Firestore, REST APIs, PHP (Laravel)

Database & Cloud: Firestore, Firebase Authentication, MySQL, Supabase

AI & Productivity: Gemini AI, GitHub Copilot, ChatGPT, Claude AI, AI Prompt Engineering

Tools: Git, GitHub, VS Code, Postman, Figma

## PROFESSIONAL EXPERIENCE

### Software Engineer

#### SportsPilotAI

December 2025 – Present

- Develop and maintain AI-powered SaaS platforms using React, Next.js, TypeScript, Firebase, and Firestore.
- Implement full-stack features including reporting systems, communications platforms, notifications, workflow management, and real-time synchronization.
- Build scalable cloud-based solutions with role-based access control and responsive user experiences.
- Collaborate on testing, bug fixing, architecture planning, database migrations, and production deployments.

#### RecruitAssistAI

- Engineered player management, communications, reporting, AI matching, notifications, and tryout management workflows using React, Next.js, TypeScript, Firebase, and Firestore.
- Implemented real-time synchronization, role-based access controls, scalable Firestore data models, and workflow automation features.

#### ParentAssistAI

- Developed parent engagement and communication workflows while contributing to platform modernization, feature enhancements, and user experience improvements.

**PHP Developer – Technology Associate**  
**eduClaaS Pte. Ltd. (Singapore)**  
**November 2024 – December 2025**

- Contributed to the development and maintenance of web applications using PHP (Laravel), JavaScript, HTML, CSS, and MySQL.
- Implemented front-end and back-end functionality for internal and client-facing applications.
- Participated in testing, debugging, deployment, and collaborative software development workflows using Git and GitHub.

**Conversational Marketing AI Application**

- Contributed to the development of an AI-powered marketing platform utilizing Laravel, API integrations, Git, and GitHub while collaborating within an industry-accredited software engineering program.

**PERSONAL PROJECTS**

**LunarLedger (Personal Budget Management Application) | React 19, Vite, Tailwind CSS, Chart.js, FullCalendar | 2026**

- Developed a personal finance and budgeting application focused on weekly salary management, payable tracking, and spending analysis.
- Built planner and insights workflows separating financial management from analytical reporting.
- Implemented interactive financial visualizations using Chart.js and calendar-based planning using FullCalendar.
- Developed custom budgeting utilities for safe-to-spend analysis, cumulative expenses, and budget forecasting.

**Merry Meals Website | HTML, CSS, PHP, MySQL**

- Developed responsive user interfaces and contributed to platform functionality while focusing on usability, accessibility, and collaborative software engineering practices.

**EDUCATION**

Bachelor of Science in Information Technology — Major in Software Engineering  
University of Cebu (Philippines) & EduCLaaS Litan (Singapore)  
Expected Graduation: 2028

**CERTIFICATIONS & ACHIEVEMENTS**

- Applied Degree in Software Engineering (In Progress)
- GitHub Student Developer Pack
- EduCLaaS / Litan Software Engineering Program
